Pittsburgh, October 25, 1815.

DOCTOR N. SMITH,

RESPECTFULLY informs the inhabitants of Pittsburgh and its vicinity, that he has been regularly licensed to practice PHYSICK AND SURGERY, and has for several years been engaged in the practice of its various branches, and therefore offers them his services, particularly in the capacity of a Dentist, hoping that his thorough knowledge of this branch of his profession, united with assiduity in business, and exertions to please, will entitle him to the patronage of the public. He cleans, repairs and extracts defective teeth, inserts new ones in such a manner and of such materials, the knowledge of which is peculiar to himself. He deems encomiums upon his performances superfluous, as he has set a number of artificial teeth since his residence in Pittsburgh; those that have scruples respecting the operation are requested to call and satisfy themselves.

The operation of inserting and cleaning is attended with little or no pain.

He also prepares the highly celebrated Carbonic Dentrifice, which will keep the teeth white and prevent the collection of Tartor.

Applications made at DR. MORRIS PARKER'S east side of Wood street, between Diamond Alley and Fifth streets.

October 14, 1815.

N. B. If the expectations are not answered, pecuniary satisfaction will not be required.

To regulate the Commerce between the Territories of the United States and of His Britannic Majesty.

The United States of America and His Britannic Majesty being desirous by a convention to regulate the commerce and navigation between their respective countries, territories and people, in such a manner as to render the same reciprocally beneficial and satisfactory, have respectively named plenipotentiaries and given them full powers to treat of and conclude such convention, that is to say, the President of the United States, by and with the advice and consent of the Senate thereof, hath appointed for their plenipotentiaries John Quincy Adams, Henry Clay, & Albert Gallatin, citizens of the United States; and His Royal Highness the Prince Regent, acting in the name and on behalf of His Majesty, has named for his plenipotentiaries the right hon. Frederick John Robinson, vice president of the committee of privy council for trade and plantations, joint paymaster of his Majesty's forces, and a member of the Imperial Parliament, Henry Goulburn, Esq. a member of the Imperial Parliament, and under secretary of state, and William Adams, Esq. doctor of civil laws; and the said plenipotentiaries having mutually produced and shewn their said full powers, and exchanged copies of the same, have agreed on and concluded the following articles, vide licet:

Article the First.

There shall be between the territories of the United States of America, and all the territories of his Britannic Majesty in Europe, a reciprocal liberty of Commerce. The inhabitants of the two countries respectively shall have liberty freely and securely to come with their ships and cargoes to all such places, ports and rivers in the territories aforesaid to which other foreigners are permitted to come, to enter into the same and to remain and reside in any parts of the said territories respectively, also to hire and occupy houses and warehouses for the purposes of their commerce: and generally the merchants and traders of each nation respectively shall enjoy the most complete protection and security for their commerce, but subject always to the laws and statutes of the two countries respectively.

Article Second.

No higher or other duties shall be imposed on the importation into the U. States of any articles the growth, produce or manufactures of his Britanic Majesty's Territories in Europe, and no higher or other duties shall be imposed on the importation into the Territories of His Britannic Majesty in Europe of any articles the growth, produce or manufacture of the U. S. than are or shall be payable on the like articles being the growth, produce or manufacture of any other foreign country, nor shall any higher or other duties or charges be imposed in either of the two countries, on the exportation of any articles to the United States or to his Britannic Majesty's territories in Europe, respectively than such as are payable on the exportation of the like articles to any other foreign country, nor shall any prohibition be imposed on the exportation or importation of any articles the growth, produce or manufacture of the U. States, or of his Britannic Majesty's territories in Europe, to or from the said territories of his Britannic Majesty in Europe, or to or from the said U. States, which shall not equally extend to all ather nations.

No higher or other duties or charges shall be imposed in any of the ports of the U. S. on British vessels, than those payable in the same ports by vessels of the U. S. nor in the ports of any of his B. M's territories in Europe on the vessels of the United States than shall be payable in the same ports by British vessels.

The same duties shall be paid on the importation into the U. States of any articles the growth, produce or manufacture of his Britannic Majesty's territories in Europe, whether such importation shall be in vessels of the U. States or in British vessels, and the same duties shall be paid on the importation into the ports of any of his Britannic Majesty's territories in Europe of any article the growth, produce or manufacture of the U. States, whether such importation shall be in British vessels, or in vessels of the U. States.

The same duties shall be paid and the same bounties allowed on the exportation of any articles, the growth, produce or manufacture of his Britannic Majesty's territories in Europe, to the U. States, whether such exportation shall be in vessels of the U. States or in British vessels; and the same duties shall be paid and the same bounties allowed, on the exportation of any articles, the growth, produce or manufacture of the U. States to his Britannic Majesty's territories in Europe, whether such exportation shall be in British vessels, or in vessels of the U. States.

It is further agreed that in all cases where drawbacks are or may be allowed, upon the re-exportation of any goods, the growth, produce or manufacture of either country, respectively, the amount of the said drawbacks shall be the same, whether the said goods shall have been originally imported in a British or American vessel; but when such re-exportation shall take place from the U. S. in a British vessel, or from the territories of his Britannic Majesty in Europe in an American vessel, to any other foreign nation, the two contracting parties reserve to themselves, respectively, the right of regulating or diminishing, in such case, the amount of the said drawback.

The intercourse between the U. States and his Britannic Majesty's possessions in the W. Indies, and on the continent of North America, shall not be affected by any of the provisions of this article, but each party shall remain in the complete possession of its rights, with respect to such an intercourse.

Article the Third.

His Britannic Majesty agrees that the vessels of the U. States of America shall be admitted, and hospitably received at the principal settlements of the British dominions in the East Indies, vide licet, Calcutta, Madrass, Bombay and Prince of Wales' Island, and that the citizens of the said U. S. may freely carry on trade between the said principal settlements and the said U. S. in all articles of which the importation and exportation respectively, to and from the said territories, shall not be entirely prohibited; provided only, that it shall not be lawful for them in any time of war, between the British government and any state or power whatever, to export from the said territories, without the special permission of the British government, any military or naval stores, or rice. The citizens of the U. S. shall pay for their vessels, when admitted, no higher or other duty or charge than shall be payable on the vessels of the most favored European nations.

But it is expressly agreed, that the vessels of the U. S. shall not carry any articles from the said principal settlements to any port or place except to some port or place in the U. S. of America, where the same shall be unladen.

It is also understood, that the permission granted by this article is not to extend to allow the vessels of the U. S. to carry on any part of the coasting trade of the said British territories, but the vessels of the U. S. having, in the first instance, proceeded to one of the said principal settlements of the British dominions in the East Indies, and then going with their original cargoes, or part thereof, from one of the said principal settlements to another, shall not be considered as carrying on the coasting trade. The vessels of the U. S. may also touch for refreshment, but not for commerce, in the course of their voyage to and from the British territories in India, or to or from the dominions of the Emperor of China, at the Cape of Good Hope, the island of St. Helena, or such other places as may be in the possession of Great Britain, in the African or Indian seas, it being well understood that in all that regards this article, the citizens of the U. S. shall be subject, in all respects, to the laws and regulations of the British government, from time to time established.

Article the Fourth.

It shall be free, for each of the two contracting parties, respectively to appoint consuls, for the protection of trade, to reside in the dominions and territories of the other party, but before any consul shall act as such, he shall in the usual form be approved and admitted by the government, to which he is sent, and it is hereby declared that in case of illegal or improper conduct towards the laws or government of the country to which he is sent, such consul may either be punished according to law, if the laws will reach the case, or be sent back, the offended government assigning to the other the reasons for the same.

It is hereby declared that either of the contracting parties may except from the residence of consuls such particular places as such party shall judge fit to be so excepted.

Article the Fifth.

This convention, when the same shall have been duly ratified by the President of the U. S. by and with the advice and consent of their Senate, and by his Britannic Majesty, and the respective ratifications mutually exchanged, shall be binding and obligatory on the said U. S. and his Majesty for four years from the date of its signature, and the ratifications shall be exchanged in six months from this time, or sooner if possible.

Done at London, this third day of July, in the year of our Lord one thousand eight hundred and fifteen.

(L. S.) JOHN Q. ADAMS,
(L. S.) H. CLAY,
(L. S.) A. GALLATIN,
(L. S.) F. J. ROBINSON,
(L. S.) HENRY GOULBURN,
(L. S.) WILLIAM ADAMS.

NOW, therefore, be it known, that I, JAMES MADISON, President of the U. S. of America, having seen and considered the foregoing Convention, have, by and with the advice and consent of the Senate, accepted, ratified and confirmed the same and every clause and article thereof, subject to the exception contained in a declaration made by the authority of His Britannic Majesty on the 24th day of November last, a copy of which Declaration is hereunto annexed.

In testimony whereof, I have caused the seal of the U. States to be hereto affixed, and have signed the same with my hand. Done at the City of L. S. Washington, this twenty-second day of December, A. D. one thousand eight hundred and fifteen, and of the Independence of the U. S. the fortieth.

JAMES MADISON.

By the President,
JAMES MONROE,
Secretary of State.

DECLARATION.

The undersigned, his Britannic Majesty's charge d'affairs in the U. S. of America, is commanded by his Royal Highness the Prince Regent, acting in the name and on behalf of his majesty, to explain and declare, upon the exchange of the ratifications of the convention concluded at London on the 3d of July of the present year, for regulating the commerce and navigation between the two countries, that in consequence of events which have happened in Europe subsequent to the signature of the convention aforesaid, it has been deemed expedient and determined in conjunction with the Allied sovereigns, that St. Helena shall be the place allotted for the future residence of General Napoleon Bonaparte, under such regulations as may be necessary for the perfect security of his person, and it has been resolved, for that purpose, that all ships and vessels whatever, as well British ships and vessels as others, excepting only ships belonging to the East India Company, shall be excluded from all communication with or approach to that Island.

It has therefore become impossible to comply with so much of the third article of the Treaty as relates to the liberty of touching for refreshment at the island of St. Helena, and the ratifications of the said treaty will be exchanged under the explicit declaration and understanding that the vessels of the U. S. cannot be allowed to touch at, or hold any communication whatever with the said island, so long as the said island shall continue to be the place of residence of the said Napoleon Bonaparte.

NEW YORK, *Dec.* 25.

LATEST FROM ENGLAND.

By the ship Amiable Matilda, captain Aymar, 33 days from Liverpool, we have received Liverpool papers of the 22d, and London of the 20th ult.

Parts of several regiments sailed from England on the 19th of Nov. to join the army in Paris. In consequence of the commotions in Paris, the streets are regularly patrolled by the military.

The trial of Marshal Ney, which has excited some extraordinary interest in this country as well as in Europe, it appears has closed before the Council of War, where it had been so long pending: that Council adopting the plea advanced by the counsel of the Marshal, declared their incompetence to try him, alledging, that as he was a Peer of France, he could be tried only by the Chamber of Peers: consequently, on the 11th of Nov. the King of France issued an ordinance to the Chamber of Peers, directing them to proceed without delay to the trial of marshal Ney, accused of high treason, &c. The prevailing opinion was, that the Chamber of Peers would condemn him.

A dreadful explosion took place in London on the 13th ult. by the bursting of a Steam Boiler, used by Messrs. Constradt & Co. sugar refiners, Well street, in a new process lately discovered for the quick refinement of Sugar. The explosion carried, in the awful crash, utter destruction to the concern, and buried in the heap of ruins it produced, the bodies of more than 20 persons; 9 only of this number were extricated from the ruins with life. The loss of property is estimated at 25,000 pounds sterling.

LONDON, NOV. 20.

Paris papers received this morning.—Ney's trial engrosses almost exclusively the public attention. On Thursday the Peers sat several hours for the purpose of hearing the indictment against Ney read. On Friday they were to hear the King's Attorney General, after which they were to decide whether a mandate of arrest should be issued or not. Ney himself would not be brought before the Peers till this day or to-morrow.

The members of the former and present Ministry have been challenged as well as Augereau.

LIVERPOOL, NOV. 22.

Private letters are said to have been received from the south of France, stating the renewal of the persecutions of the Protestants in that quarter, if indeed they have been at all suspended. On the 17th of October 7 of the principal inhabitants of Nismes, protestants, were assassinated. A wretch of the name of Thristallon was the leader of the Catholics and of assassins on this occasion, and has since been arrested. On a former occasion it is added, he was set at liberty, on account of his threatening to disclose the names of his employers. We shall now see whether the French government will bring him to justice. The duke of Angouleme is now in the south; we shall see whether this Prince so much flatter-

ed both by France and English newspapers, will clear himself of those aspersions which have been expressed respecting his political principles, by affording that protection to the Protestants which the laws give them. Surely this subject is of sufficient importance for the interposition of the allied powers.

From the Boston Centinel, Dec. 23.

FROM ENGLAND.

We have received our regular London files to the 29th Oct. by the New Packet from Liverpool.

The details of the Convention executed between the Allies and France are received. They answer to the summary published some time since. Upwards of 230,000 of the allied troops, are said to have left the French soil; and others have taken possession of the garrison towns surrendered to the allies. Of these, 15 are to be occupied by Prussians, 6 by the Dutch, and 3 by the British troops. The Emperor of Austria and King of Prussia had arrived in their capitals; and the Emperor of Russia was on his way home. The general state of France was quiet. Some of the *leaven* of Buonaparte was found fermenting at times, but was immediately put down by the royal officers, of whom none appear more vigilant and severe in crushing the worshippers of the modern Moloch than Marshals Macdonald, Oudinot, and other officers of the old army. These seditious attempts are, however, made the excuse for the enactment of laws subversive of the liberty of the subject, and calculated to make the crown despotic.

THE PITTSBURGH GAZETTE.

SATURDAY, JANUARY 6, 1816.

The Commercial Treaty,

Published in this day's Gazette, is as silent as the Treaty of Peace, respecting "Sailors Rights." What then, we would ask, has been gained by the war? The subject is placed in a clear point of view—Let the people judge.

CONGRESS.

Thus far in the session nothing of importance has been done in this assemblage. The house is almost exclusively occupied in receiving petitions, memorials, remonstrances, and representations from all quarters—some asking payment for horses and waggons captured during the war—others praying to be relieved from burdensome taxes—one petitioner (an embargo and war man) has the impudence to ask for remuneration for a ship captured at Alexandria, owing to her having been detained there by the embargo! There are also several petitions from paymasters of the army, for relief, having, as they declare, been robbed of the public money, taken by the enemy, &c. In short, our readers would not only be tired but disgusted were we to enumerate all the claims which the late *glorious* war has given birth to. Certain it is, however, that the treasury will be robbed of millions, to satisfy demands scarcely one of which is founded in justice.

In the House of Representatives of Pennsylvania, on the 19th ult. a very interesting debate took place relative to the adoption of a resolution offered by Mr. Powell, directing the Committee on Banks to enquire into the expediency of annulling the Charter of Banks who refuse to pay specie for their notes. Messrs. Powell, Rowland and Sutherland in favor of the resolution, and Messrs. Hollowell, Scott, Kittera, Holgate and Buchanan against it: which ended in the adoption of the following:—

"*Resolved*, That the Committee on Banks be instructed to enquire into the causes of the suspension of specie payments by the Banks within this Commonwealth. And also, whether any or what measures ought to be adopted by the legislature on this subject, and make report of the same to this House."

To the Editor of the Pittsburgh Gazette,

SIR,

In the "Commonwealth" of the 27th inst. there is an editorial article censuring the Prothonotary of Allegheny County for not forwarding a return to the office of the Secretary of the Commonwealth of Pennsylvania of the election of Mr. *Power*. The public will appreciate the candour and magnanimity of the editors in assailing the character of Mr. Pentland in his absence from home, when they are informed that it is the duty of the *return judges* from each county, and the judges from each election *district*, to cast up the several county or district returns, as the case may be, and make duplicate returns of the person or persons chosen; one of which to be deposited in the Prothonotary's Office of the county, ☞ and *one other* of the returns, under a sealed cover, directed to the Secretary of the Commonwealth, shall be, by THE SAID JUDGES placed in one of the nearest post-offices.

PENNSYLVANIA LEGISLATURE.

It is said that the House of Representatives have chosen a gentleman for their Speaker, who never before had a seat in any legislative body. It is thought

...at no less than fifty-one new members ...pose a part of that House, who must ...rtainly be in a similar state of ignorance ...with respect to the rules and progress of ...gislative proceedings. There cannot ...e a stronger proof of their ignorance of ...ose proceedings, and their want of dis...sition to dispatch business, than the ...oice they have made of a Speaker.— ...is well known that the experience, ...lents, and promptitude of a Speaker, ...the very soul of a legislative body.

If the Ghost of General Mifflin was ...rmitted to descend from the regions ...f happiness and look down upon the ...air which he once honored with so ...uch dignity and talents, it would fly ...ith horror from the disgusting spectacle ...hibited in that House. From the ma...erials which compose a majority of that ...ody, what have the people of Pennsyl...ania to expect from the ignorance, the ...or and delay, which must of course ...rvade all their deliberations.

The multitude of what they may call ...siness, which the Governor has sug...sted and recommended, might reason...ly employ a house of experienced prac...tioners for the usual period of 4 months. ...ow, under all these considerations, ...at length of time may be allotted or ...ssed at, for the present house?— ...t less than eight months may be sup...sed!

If this legislature possess the same pas...on for lengthy sessions, which their ...edecessors have uniformly discovered ...r a number of years past, the Governor ...uld not more effectually have gratified ...eir avarice, than by sending them the ...essage he has done.

If this session should chance to cost ...e state about one hundred and sixty ...ousand dollars and upwards, it would ...ove a serious check upon the funds ...hich might be appropriated for turnpike ...oads, &c.

NEW ORLEANS, Nov. 13.

...the schr. President, from Boquilla ...Fadras, arrived Don *Jose Manuel ...ierra*, with his suite. This gentle...an, we are informed, is appointed min...er plenipotentiary from the Mexican ...public to the United States; he was a ...stinguished member of their revolutio...ry government, and on the organiza...on of the new constitution, was elected ...eputy for the province of Tecpan; his ...ppearance and conduct, since his arri...al, have impressed all who have the ...easure of his acquaintance, with a high ...ense of his merit.

We do not pretend to be acquainted ...ith the overtures he is commissioned to ...ake—still less to predict how they ...ill be received by our government:— ...t should they be, as we suppose, offers ...f friendship and commerce with that ...reat and rising republic, we cannot but ...incerely hope that they may be accept...d. Whether we look to the immense ...ux of wealth that will be produced by ...e *commerce*, or *to the political stabi...ty which our institutions* would receive ...heir support, the subject is equally ...portant.

We understand the news brought by ...is arrival are the most favorable to the ...use of Mexican freedom—the republi...ans are in possession of all the open ...untry, and though some of the great ...owns are still held by the royalists, they ...ve no communication with each other ...t by strong convoys, or more frequent...y paying a heavy duty to the repub...icans.

Gen. Toledo confirmed in his appoint...ent of general in chief of the Mexican ...ces in the internal provinces, escorted ...e minister to this place. The part this ...entleman took during the late invasion ...the English, we are informed, had ...me influence in procuring him this new ...ark of the confidence of his country, ...d is a pledge of the interest which the ...w republic takes in our welfare.

FOR THE PITTSBURGH GAZETTE.

THE CLOSE OF THE YEAR.

Far from the rapid stir of men,
Where Folly's cataracts dash along,
What theme solicits now the pen
To pour the flow of grateful song?
  Once more, my Lyre! I long to fling
  My hand across thy tightened string.

Nor be thou, Lyre! whilst thus I thrum,
With eager hand, the elastic thread,
O, be not sweet companion, dumb,
Nor be thy nerves to feeling dead:
  Thy silence would renew the tear
  Which drops upon—the expiring Year.

The Year now closing, erst, I hail'd
When it was beautiful and young,
And, whilst each SEASON'S change I wail'd,
Spontaneously the numbers sprung:
  But now I mourn its final stage,
  Its hoary garb, its frost of age.

The countenance of SPRING was blythe,
When many a flowret deck'd the plain;
But soon they sunk before the scythe,
And withered—ne'er to bloom again!
  On April's lap their balmy breath
  Was stiffl'd in the folds of death.

Next, SUMMER glow'd with virile heat,
And strength and grace were, mingling, seen
To wait upon her vagrant feet,
And pay due homage to their queen;
  Till Harvest stopped her glad career
  And gathered in the fallen ear.

Then AUTUMN, in her russet robe,
Upon our fields and lawns appear'd,
And with her spicy breath, the Globe,
Through its extensive regions, cheer'd:
  When, from the north, rude Boreas came,
  And dimmed the lustre of her flame.

For, WINTER'S griping hand, behold!
On Autumn's gasping bosom laid,
Stiffens the flow of life, with cold,
And strips the leaves from every blade:
  Whilst many a valley, hill, and slope,
  With sorrow pine—bereft of hope.

And must each rural child, in vain,
For renovated joyance sigh?
Explore, in vain, the vacant plain,
For some faint warmth, from yonder sky?
  And must the babbling of the rill,
  Awe-struck, henceforth, be ever still!

Nor longer shall the forest, breathe
The enlivening spirit of the day
As if the sun would ne'er unsheathe,
His vapour-intercepted ray?
  And shall the sullen wintry blast
  Ne'er cease his furies round to cast?

—Yes! Phœnix-like, the worn out year
Shall be renewed with vernal charms,
For *Flora's* train shall soon appear
To decorate our groves and farms:
  And warmer beams shall bid the snow
  Once more permit the floods to flow.

And GEMS, too, ere long, shall dance
The blossom-spangled lawn along,
Call forth the rapture-sparkling glance,
And wake the reaper's grateful song;
  For Harvest-home again shall cheer
  The farmer with the *golden* ear.

POMONA, with distended lap,
Shall follow, with her merry band,
And give her rich nectarean sap,
Drained from the fruitage of the land:
  And many a bulb, and root, and pod
  Shall swell and burst the garden sod.

Thus, in an interlapsing round,
The SEASONS oft shall go and come,
And, with perennial blessings crown'd,
Strike every tongue of murmur dumb—
  For PROVIDENCE delights to cheer
  Man with the bounties of the year.

And shall not *we*, whose steps advance
Through youth and manhood to old age,
Like Moses send a *Pisgah*-glance,
Ere we o'erstep this mortal stage—
  Lest life, of which we are so fond
  Expire and leave all blank beyond?

Solicitous enquirer, know,
That when *thy year's* dark clouds are past,
One round of joys to thee shall flow,
And like the circling seasons last:
  Provided thou, with zeal shall join,
  To Nature's love of order, thine.

For, if from Life's vicissitudes
Instruction's lessons thou shalt glean,
The sprigs that sprout from wisdom's buds
Shall on thy wintry brow be seen;
  And after death, upon thy tomb,
  The wreath's ne'er cloying sweets shall bloom.

Yes! when thou shalt have sunk beneath
The pressure of the foot of TIME,
The honours of thy hallowed wreath
Shall flourish in immortal prime:
  And in thy path eternal spring
  The rose-leaves of delight shall fling.

Let then each face, this day assume
A smile to welcome in the year,
And from December's wintry gloom
Dispel the sigh and wipe the tear:
  So shall the joys of life be found
  To circulate the whole year round.

Messrs. Bosler & Co.

Have just received from LEE'S PATENT *and* FAMILY MEDICINE STORE, *New-York,*

A FRESH SUPPLY OF THE FOLLOWING

GENUINE MEDICINES.

For the prevention and cure of Bilious and Malignant Fevers, is recommended

Hahn's Anti-Bilious Pills.

THIS MEDICINE has been attended with a degree of success highly grateful to the inventor's feelings, in several parts of the West Indies, and the Southern and Middle States, particularly in New-York, Philadelphia, Baltimore, Petersburgh, Norfolk, Edenton, Wilmington, Charleston and Savannah. The testimony of a number of persons in each of the above places can be adduced, who have reason to believe, that a timely use of this salutary remedy has, under Providence, preserved their lives, when in the most alarming circumstances.

Facts of this conclusive nature speak more in favor of a medicine than columns of pompous eulogy, founded on mere assertion.

It is not indeed, presumptuously proposed as an infallible cure, but the inventors has every possible reason that can result from extensive experience, for believing that a dose of these Pills, taken once in every two weeks, during the prevalence of our bilious fevers will prove an infallible preventative; and further, that in the earliest stages of those diseases, their use will very generally succeed in restoring health, and frequently in cases esteemed desperate, and beyond the power of common remedies.

The operation of these Pills is perfectly mild so as to be used by persons in every situation, and of every age.

They are excellently adapted to carry off superfluous bile, and prevent its morbid secretions; to restore and amend the appetite; to produce a free perspiration, and thereby prevent colds, which are often of fatal consequences. A dose never fails to remove a cold, if taken on its first appearance. They are celebrated for removing habitual costiveness, sickness at the stomach, and severe head-ache, & ought to be taken by all persons on a change of climate.

They have been found remarkably efficacious in preventing and curing disorders attendant on long voyages, and should be procured and carefully preserved for use by every seamen.

HAMILTON'S
Worm Destroying Lozenges,

Which have cured an immense number of persons of both sexes, of every age, and in every situation, of various dangerous complaints arising from worms, and from obstructions of foulness in the stomach and bowels.

This medicine bears no analogy whatever to others of similar titles so commonly complained of, as operating with violence; on the contrary, a particular excellence of this remedy is its being suited to every age and constitution. It contains nothing but what is perfectly innocent, and is so mild in its operation that it cannot injure the most delicate pregnant lady, or the tenderest infant of a week old, should no worms exist in the body; but will, without pain or griping, cleanse the stomach and bowels, of whatever is foul or offensive, and thereby prevent the production of worms, and many fatal disorders. The Lozenges are particularly efficacious in carrying off all gross humours and eruptions, feverish and bilious complaints, and are the safest and mildest purgative that can be used on any occasion.

DESCRIPTION OF WORMS,
And the symptoms by which they are known:

Worms which infest the human body, are chiefly of four kinds, viz—The Teres, or large round worm; the Ascarides, or small maw-worm; the Cucurbitina, or short, flat, white worm; and lastly, the Tænia, or tape-worm, so called from its resemblance to tape. This is often many yards long, and is full of joints. It is most hurtful and most difficult to remove.

Among the symptoms attending worms, are —disagreeable breath, especially in the morning; bad and corrupted gums; itching in the nose; convulsions; epileptic fits, and sometimes privation of speech; starting and grinding of the teeth in sleep; irregular appetite, sometimes loathing food, and sometimes voracious; purging, with slimy and fetid stools; vomiting; large and hard belly; pains and sickness at the stomach; pains in the head and thighs, with lowness of spirits; slow fever, with small and irregular pulse; a dry cough; excessive thirst; sometimes pale and unhealthy countenance, and sometimes the face bloated and flushed.

Persons afflicted with any of the above symptoms, should have immediate recourse to Hamilton's Worm Destroying Lozenges, which have been constantly attended with success.

A dose of this medicine given occasionally during the warm season, will effectually prevent "the vomiting and purging of children"—a dreadful disorder, which annually destroys thousands of the infant part of our citizens.—It is likewise the mildest and most certain remedy known, and has restored to health and strength a great number when in an advanced stage of this fatal complaint. Particular and plain instructions are given for every part of the necessary treatment in such cases.

Children generally take this medicine with eagerness; having a pleasing appearance, and an agreeable taste.

Hamilton's Grand Restorative,

The proprietor of HAMILTON'S RESTORATIVE DROPS confidently recommends it as an invaluable medicine, for the speedy relief and permanent cure of

Nervous Disorders	Violent cramps in the stomach and back
Consumptions	Indigestion
Lowness of Spirits	Melancholy
Loss of Appetite	Gout in the Stomach
Impurity of Blood	Pains in the Limbs
Hysterical Affections	Relaxations, &c.
Inward Weaknesses	

The principal operation of this medicine is in the stomach, restoring the digestive power, and sending from that organ new health and vigor into every part of the system; it enriches and purifies the blood without stimulating, too violently, the nervous system; strengthens the secretory vessels and general habits, brings back the muscular fibres to their natural and healthy tone; and restores that nutrition which immoderate evacuations have destroyed, and whose loss had thrown the whole frame into langour and debility.

The Restorative is absolutely above all commendation in removing those weaknesses and infirmities with which many females are afflicted, the consequences of difficult and painful labours, or of injudicious treatment therein.

In cases of extremity, where the long prevalence and obstinacy of disease have brought on a general impoverishment of the system, excessive debility of the whole frame, and a wasting of the flesh, which no nourishment or cordial could repair

Perseverance in the use of this medicine has performed the most astonishing cures.

The Grand Restorative is prepared in Pills, as well as in a fluid form, which assists considerably in producing a gradual & lasting effect.

HAMILTON'S
ESSENCE & EXTRACT OF MUSTARD,

A safe and effectual remedy for Rheumatisms, Gout, Palsy, Sprains and Bruises, White Swellings, old Strains and Relaxations, Numbness and Weakness of the Neck, Pains of the Side, Headache, Swelled Faces, Frozen Limbs, and every similar complaint. It prevents Chilblains, or Chopped Hands, and the ill effects of getting wet or damp in the feet.

THE GENUINE PERSIAN LOTION,

So celebrated among the fashionable thro' out Europe, is an invaluable cosmetic, perfectly innocent and safe, free from corrosive and repellent minerals, (the basis of other Lotions) and of unparalleled efficacy in removing bile in shes of the face and skin, freckles, pimples, inflammatory redness, scurfs, tetters, ringworms, sunburns, prickly heat, &c. The Persian Lotion operates mildly, without impeding the natural, insensible perspiration, which is essential to health, yet its effects are speedy and permanent, rendering the skin delicately soft and smooth, and improving the complexion.

THE RESTORATIVE POWDER,
For the Teeth and Gums.

This excellent preparation comforts and strengthens the gums, preserves the enamel from decay, and cleanses & whitens the teeth, by absorbing all the acrimonious slime and foulness, which, suffered to accumulate, never fails to injure and finally ruin them.

HAMILTON'S
ELIXIR FOR COUGHS,

Celebrated for the cure of colds, obstinate coughs, asthmas, and approaching consumptions, and a certain remedy for the whooping cough.

HAHN'S
GENUINE EYE WATER,

A sovereign remedy for all diseases of the eyes, whether the effect of natural weakness or of accident.

TOOTH ACHE DROPS.

The only remedy yet discovered which gives immediate and lasting relief in the most severe instances.

ITCH CURED.
LEE'S SOVEREIGN OINTMENT FOR THE ITCH,

Warranted an infallible remedy at one application, may be used with perfect safety on infants a week old, not containing a particle of mercury or any dangerous ingredient whatever, and not accompanied with that tormenting smart which attends the application of other remedies.

Pittsburgh, November

DOCTOR CHISHOLM'S
Anti-Bilious Pills,

Of a quality superior to any thing of the kind ever offered as a GENERAL MEDICINE, in this Country.

NOW prepared from a recipe of the celebrated *Dr. Chisholm*, who, from a long residence in the West-India Islands, has been enabled to favor the world with the most complete history, and most approved methods of curing all the BILIOUS DISEASES of those warm climates.

This extraordinary Medicine, which now for the first time is finding its way into general practice, has properties in the highest degree superior to the mercurial nostrums so frequently recommended by the name of *Anti-Bilious Pills.* The extraordinary powers of this medicine as a solvent and evacuent of Bile, is without example; never producing debility or injuring the health, in the smallest degree, of the most delicate child or weakly female:

The BILIOUS HEAD-ACHE, so much complained of in this country, and in the neighbourhood of rivers, is often removed by a single dose, which, to a strong man, is only five pills, and to a weakly woman, three. The same dose will generally remove the most excruciating pains of the cholic, like a charm, by abusing the bile to pass downwards in the course of an hour or two.

Two or three Pills taken an hour before dinner, and repeated every third day, will effectually remove those diseases arising from flatulency and indigestion, and by persevering in the use of them for a considerable time, the appetite will be improved, and strength and vigor will return.

Two Pills taken at bed time, with a cup of penny-royal tea, and repeated every second night, will effectually remove *Rheumatic pains* wherever seated.

A single Pill, taken every fourth hour with a cup of flaxseed tea, will cure *Pleurisy,* promote expectoration, and relieve coughs and colds.

In CONSUMPTIVE CASES and DISEASES OF THE LIVER, no medicine ever yet discovered, has been known to perform such cures. Two Pills taken every third morning, will be found sufficient, unless costiveness prevails; in which case the dose may be increased according to the strength or constitution.

The *Dysentery, Croup,* and *Summer Complaint* on children, are soon relieved by a few doses. A single Pill to a child of 6 years old, and the dose increased according to their strength and age.

In *Asthmatic* or *Phthisical* cases, where the laborious breathing and great oppression, with faintings, are fast sinking the patient to the brink of the grave, a few Pills, taking one every hour, with fennel or pepper-mint tea, will often enable the patient to walk about in a few hours.

The above valuable Medicine is Sold ONLY *in Pittsburgh, by*

J. P. & J. W. SKELTON,

at their Wholesale and Retail Apothecary and Drug Store.

DOCTOR HANDY'S
WORM
DESTROYING LOZENGES.

A safe and efficacious medicine for destroying and bringing away WORMS.

MAY be used with safety by children of any age, or as common physic by the most delicate constitution, in any climate, without restraint of diet, or the smallest danger from cold. It may be given with advantage after the small-pox or measles; or as a family medicine, in any case where physic is necessary.—The most frequent seat of worms in the human body, is the intestinal tube; but occasionally they have been found in almost every other part of the body.

Some very extraordinary cases of *Worms,* of an unusual form and appearance, being brought away by these Lozenges, have been made public in England, where the rapid sale of the medicine has exceeded any thing of the kind ever known before; and has also proved, to a demonstration, its approved superiority, as an athelmanthick, to the numerous puffed-up, useless nostrums, which are daily advertised in the newspapers.

A single dose of this *valuable medicine* has often been known to remove half a pot full of the Teres or Round Worms.

A few doses are generally sufficient to remove the Ascarides, a small white worm, the seat of which is either the stomach or rectum.

Even the *Tape Worm,* at all times the most difficult to destroy, may, by persevering in the frequent use of this medicine, be totally removed in the course of a few weeks.

To select cases, with the names of people who are not known here, and living at a great distance, would be useless, and take up too much of the readers time. We shall therefore only observe, for the benefit of those who are acquainted with the symptoms of worms, that they are known or suspected to exist by a pain in the stomach, attended with a sudden depression of spirits before eating; at other times the belly is hard, painful and distended with wind—costiveness, head ache, and trembling of the limbs, with a sense of something rising in the throat—pale complexion and emaciated body, with weakness and irregular appetite—convulsive, epileptic or failing fits—pains in the back and side, and frequent itching of the nose, and sometimes of the anus. The above and a long train of afflicting diseases may all be occasioned by worms, which are much oftener the cause of death than is commonly believed.
